

The main objective of this project is to analyze retail sales data to gain actionable insights that will enhance the performance of the Coffee Shop.

Start Your Day With Coffee

Recommended Analysis

- **How do sales vary by day of the week and hour of the day?**

Weekdays (Mon–Fri) drive higher footfall. Peak order hour is 10–11 AM across all locations, with a secondary peak at 8 AM. Evenings after 6 PM show a sharp decline in quantity sold.

- **Are there any peak times for sales activity?**

Peak sales activity occurs between 8 AM – 11 AM (morning rush). Friday records the highest single-day orders (21,701), while Saturday is the slowest (20,510).

- **What is the total sales revenue for each month?**

Revenue grows month-over-month: Jan \$81,678 → Feb \$76,145 → Mar \$98,835 → Apr \$1,18,941 → May \$1,56,728 → Jun \$1,66,486. June is the top-performing month.

- **How do sales vary across different store locations?**

All three stores perform similarly: Astoria (50,599), Hell's Kitchen (50,735), Lower Manhattan (47,782). Revenue is balanced at ~\$230K–\$237K each, showing consistent demand.

- **What is the average price / order per person?**

Average bill per person: \$4.69. Average number of orders per person: 1.44. Customers tend to make single or dual purchases per visit.

- **Which products are the best-selling in terms of quantity and revenue?**

Top 5 by revenue: Barista Espresso (\$91,406) > Brewed Chai Tea (\$77,082) > Hot Chocolate (\$72,416) > Gourmet Brewed Coffee (\$70,035) > Brewed Black Tea (\$47,932).

- **How do sales vary by product category and type?**

Coffee dominates with 39% of total revenue (\$2,69,952). Tea follows at 28%. Drinking Chocolate contributes 10%. Bakery, Flavours, and Coffee Beans account for smaller shares.
